

## IMPORTERS PROTEST AGAINST EMBARGO

### PLEAD FOR "UNINTERRUPTED SUPPLY OF AMERICAN-OWNED MERCHANDISE"

Exert Formal Pressure on United States to Secure a Modification of Embargo from Great Britain—Committee Visits Trade Advisers.

Washington, June 26.—Pressure of a formal and organized character was exerted today on the United States government to secure from Great Britain modification of the embargo on all commercial intercourse between Germany and neutral countries. Twenty members of a committee appointed by more than 1,000 American importers laid before Secretary Lansing, Solicitor Johnson and Robert F. Rose of the board of foreign trade advisers a petition setting forth that Great Britain has studiously avoided answering the American note of March 30th, that in the meantime valuable time has been lost in preparing for future business and that the general effect has been harmful to the "long established trade" of this country.

**Plead for Uninterrupted Supply.**  
The importers pleaded for "an uninterrupted supply of American merchandise, whether the same has been paid for, contracted for, or may be contracted for," and the unrestricted right to ship non-contraband goods through neutral countries to or from Germany.

In a statement issued by the importers after their conference it was revealed that Secretary Lansing had expressed a determination on the part of both the president and himself to do all in their power to aid the importers in securing the rights to which they are entitled under the laws of nations and by treaty obligations.

**Takes Facts Under Consideration.**  
The effect of today's conference will not be apparent for several days. Secretary Lansing took the facts presented by the importers under consideration and will communicate with President Wilson.

Developments are expected as soon as the German note arrives in the next two weeks, for as soon as it is apparent to the United States that Germany will act in conformity with international law affecting neutrals in connection with the use of submarines, the representations to Great Britain will be dispatched. Before a note is sent however it is considered possible that the statement of the American importers will be transmitted to Ambassador Page for presentation to the British foreign office in order that Great Britain may appreciate the growing unrest of American merchants.

**Follows Argument of U. S.**  
The importers' petition follows the argument made by the United States in its previous note to Great Britain but points out in addition that the so-called blockade of the German coast is not effective since Sweden can trade freely with German ports. The test of the validity of a blockade is its effectiveness and the importers declare that the citizens of the United States should have the same right as those of Sweden.

## MAXIM'S ADDRESS THREATENS TO DISRUPT STUDENT CONFERENCE

Thirty Delegates Leave Hall After Inventor Concludes Remarks—Apology is Offered and Harmony Resumed.

Ithaca, N. Y., June 26.—An address by Hudson Maxim the inventor today threatened to disrupt the student conference on international relations, which is in session here. Mr. Maxim spoke on armament, national preparedness and neutrality and after he concluded his remarks thirty delegates who disagreed with his expressed views left the hall. One delegate moved to adjourn but the motion was lost. An apology was offered the inventor and harmony was restored.

Mr. Maxim criticised Pontius Pilate as the "archtypical neutral" declared modern style guns and armaments are life saving machines and asserted that it is more dangerous to ride in an automobile than to go into the trenches. He said that war has never done harm but always has done good and asserted that the United States needed an army "strong and skillful enough to defeat any coalition of nations that could possibly stand against us."

## SPRINGFIELD MINER IS KILLED INSTANTLY IN PISTOL DUEL

SPRINGFIELD, Ill., June 26.—Joseph Leonard, a miner, aged 50 years, was shot and instantly killed here late this afternoon by J. J. Irwin, in a pistol duel staged on the front porch of the slain man's home. Irwin was wounded in the head but will recover.

The trouble started several months ago as a family quarrel when Irwin accused Leonard of feeding his cow glass. This afternoon Irwin followed his victim home. The wife of the later ran out with a gun to her husband and the battle followed.

## BATTLE OF DNIESTER SWAYS BACK AND FORTH ALONG RIVER BANKS

Russ Throw Considerable Reinforcements Into Area—Both Sides Lose Heavily.

London, June 26.—The battle of the Dniester, which will decide the fate of the left wing of the Russian army in Galicia, sways back and forth along the banks of the river, so far without decisive results. The Russians have thrown considerable reinforcements into this area, but whether they are planning a serious offensive or are merely fighting stubbornly, preparatory to another retreat is uncertain.

Both sides have lost heavily. General Von Linsingen's right flank and center having been badly cut up when the Russians threw the Austro-Germans back across the river.

The Russians have been fortifying their lines from the river to the Russian frontier and, with the Austro-German lines of communication lengthening daily the task of forcing the Russians eastward becomes more and more formidable. Although Berlin claims that the Teutonic allies have been forging ahead between the Dniester and the district which they occupied east of Lemberg, the advance lacks the characteristic of the impetuous rush so noticeable in former stages of the Galician campaign. The French and German announcements relative to the fighting in the western theatre are so contradictory as to afford only the haziest view of the situation.

The German Socialists are again active in the cause of peace, according to despatches from Germany and the prominent Vorwaerts has been rebuked for publishing their peace appeal by indefinite suspension.

Recruiting in England for the army seems to have been temporarily forgotten amid the high tension of the campaign for munitions workers.

## WOMEN TO URGE CONFERENCE OF NEUTRAL NATIONS TO END WAR

AMSTERDAM, via London, June 26.—Hundreds of mass meetings of women will be held tomorrow in all parts of the Scandinavia to urge the calling of a conference of neutral nations to end the war. Reports regarding the peace propaganda undertaken in Denmark, Sweden and Norway have been received at the headquarters here of the international congress of women for permanent peace.

This organization was the outgrowth of the women's peace congress at the Hague in May. Miss Jane Adams of Chicago who has been touring the capitals of Europe in an effort to hasten the end of hostilities is president of the permanent congress.

## GEORGIA ARTILLERY, CAVALRY AND INFANTRY GUARD SLATON'S HOME

Twenty Six Men Are Arrested by Militia—Slaton Retires as Governor.

Atlanta, Ga., June 26.—Artillery, cavalry and infantry of the state militia stood guard tonight at the home of John M. Slaton, who retired as governor of the state today, surrendering the office to Nat E. Harris. During the day twenty six men were arrested by the militia near the Slaton home and were still held in the county jail tonight. Firearms and explosives, it is alleged, however, there was no indication of renewed demonstrations against the former governor because of his action in commutating the sentence of Leo M. Frank.

The guard about the Slaton home will be maintained, it was stated tonight until the adjutant general is satisfied that all danger is passed. The former governor spent the night at home with his family. He plans to leave with Mrs. Slaton next week for a vacation trip to California. They were to have left tonight but Mr. Slaton said he had determined not to leave under fire. In the city streets double patrols of police were on duty but there was no sign of disturbances. Few inaugural visitors remained in the city tonight and the crowds were orderly.

## THREE EMPLOYES ON PRESIDENT'S PRIVATE CAR PUT OUT A FIRE

Wilson's Car Is Being Kept at Windsor in Case He Should Be Called Hurriedly to Washington.

Windsor, Vermont, June 26.—While President Wilson was taking an automobile ride with members of his family today three negro employees on his private car were busy putting out a fire which caused intense excitement in this small New England town. The president, himself an honorary member of the Guilford, Miss. fire department, as a result of his part in extinguishing a fire there in 1913, expressed pleasure when he heard of the work of the men.

The president's car is being kept here in case the president should be called hurriedly to Washington. At present he has no expectation of leaving before July 4th. Tomorrow the president plans to attend church with members of his family and take an automobile ride in the afternoon and next week he will begin to play golf regularly every day to improve his health.

## MRS. ALLEN MAY NOT HAVE BEEN MURDERED

### CORONER STATES BODY WAS RE- MOVED WITHOUT HIS PERMISSION

Doubt Spreads as to Guilt of "Chicken Joe" Campbell—Lieut. Larkin Believes Negro Is Guilty—Thinks Convict Hid Jewels and Money in Another Room.

Joliet, Ill., June 26.—There is a possibility that Mrs. Edmund Allen, wife of the warden of the Illinois penitentiary, whose body was found in the ruins after fire had destroyed her bed last Sunday, might not have been murdered.

William C. Wunderlich, coroner of Will county, annoyed at reports that the inquest into the death had not been conducted regularly, tonight said Mrs. Allen's body had been removed from the prison to the home of William D. Heise without his official permission.

Dr. Reinhard, physician for Coroner Hoffman of Cook county, was summoned by Wunderlich to examine the body but was not permitted to see it, the coroner said. Doubt as to the guilt of Joe Campbell, the negro convict charged with the murder, spread rapidly today.

Coroner Wunderlich declared he had been guided through the week largely by the desires of James Allen and other friends of the warden and the verdict holding Campbell had been reached at their desire he said.

**Devine Doubts Guilt.**

Chicago, June 26.—Doubt that "Chicken Joe" Campbell was the murderer of Warden Allen's wife at the Joliet penitentiary last Sunday was expressed today in a report made to Governor Dunne by John P. Devine, member of the house of representatives who was sent by the governor to investigate the death of Mrs. Allen. Mr. Devine was much impressed by Campbell's statement that he had every reason for wanting Mrs. Allen to live as she expected to get him a parole and had helped him to get his name before the pardon board.

It was learned that no fewer than eighteen persons were in the warden's house at the time of Mrs. Allen's death. A guard is reported to have informed an investigator that Edwards, the trustee employed as house man, was "fend for diamonds," strengthening, it is thought, the theory that robbery was the motive for an attack on Mrs. Allen. Search for a Chicago woman who is said to have visited Campbell shortly before the death of Mrs. Allen, is now going on.

**Larkin Reports to Chief.**

James V. Larkin, lieutenant of police who has been in Joliet helping in the investigation into the death of Mrs. Allen, reported to his chief tonight that he believed Joe Campbell, the negro convict had killed Mrs. Allen.

He said he believed Mrs. Allen had been murdered the night before her body was found in flames and that Campbell set fire to the bed to throw off suspicion. He said he believed Campbell had gathered about \$2,000 in jewels and \$100 and hid them in another room.

Information jewelry had been stolen was given to Larkin by another convict. The other convicts who were under suspicion were able to clear themselves the policeman said.

## GILMORE SUSPENDS TINKER AND MEYERS INDEFINITELY

BROOKLYN, N. Y., June 26.—Joseph Tinker, manager of the Chicago Federal League baseball team and Ralph Meyers of the Brooklyn Federals were suspended indefinitely tonight by President James A. Gilmore of the Federal League for engaging in an altercation in the second game today between Chicago and Brooklyn.

In the second half of the eighth inning, Tinker, playing second base tapped Meyers for a putout. An argument followed after which Meyers is said to have shoved Tinker. The men then exchanged blows. Other players separated the two who were put off the field.

**GERARD PRESENTS NOTE.**

Berlin, June 26.—Via London. Ambassador James W. Gerard today called at the German foreign office and presented the American note regarding the American ship William P. Frye, sunk by the German auxiliary cruiser Prinz Eitel Friedrich in the Pacific.

The note finds the German conditions for delay in the payment of compensation until the case is passed upon by a prize court, to be unconvincing and asks that payment be made now.

**GERMAN SUBMARINE EXPLODES**

London, June 26.—A Reuter despatch from Amsterdam said word has been received that a German submarine which left Emden for the North Sea sank last Tuesday near the island of Borkum after a severe explosion, the cause of which is not known.

The message giving this report says that the officer in command and two members of the crew who were in the turret are thought to have been saved; the remainder of the crew were drowned.

## War News Summarized

Publication of the socialist party's appeal for peace has resulted in the suspension by the German government of the Berlin newspaper Vorwaerts, which has not hesitated on several occasions to express views regarding the war which aroused resentment in official circles.

Chief objection to the socialist party's propaganda apparently is based upon the belief that it may create abroad the impression that Germany is weary of war. The German government evidently believes there is no real basis for such a belief and takes the position that both military and political conditions are favorable to the Austro-German allies.

Hammering by Teutonic armies against the Russian forces in Galicia continues without cessation, but apparently with less success to the Austro-German arms than in most of the may battles fought during the long weeks of the Galician campaign for the possession of Przemyśl and Lemberg.

From Petrograd come claims of victory in a six day battle along the Dniester, all attempts of the Teutons to gain a foothold on the north bank of the river having been frustrated, with heavy losses to the attacking troops.

The latest German official statement admits that Russian forces still hold the right bank near Heliex, this being coupled with the statement that General Von Linsingen's troops are keeping up their attacks to effect a crossing and that fighting is continuing between the Dniester and the district east of Lemberg.

According to the Russian belief desperate battles are likely soon to be fought in the vicinity of Kosmirine, near the Dniester, where it is said the Germans have been concentrating.

Accounts of German military activity in Russian Poland come at the same time as reports that many big guns from Essen, Germany, are being shipped into that region, possible in preparation for another drive at Warsaw. Pronounced German successes seemingly have occurred not far from the East Prussian border, the Germans claiming the capture by storm of a Russian position north of Przasnysz and the Russians admitting a reverse in that region through superior artillery fire by the Germans.

Neither French nor German statements indicate operations of immediate moment in the western war arena. The French admit lack of progress, due in many places, it is said, to storm-tossed territory on the fighting front, while the Germans set forth the repulse of all French attacks and the regaining of some trenches previously lost.

From Petrograd come the news of an important change in the cabinet—the resignation of General Soukhomlinoff, the Russian minister of war.

## ARGUMENT IS CONCLUDED IN WESTERN ADVANCE RATE CASE

WASHINGTON, June 26.—Argument was concluded before the interstate commerce commission today in the western rate case after a five-day discussion by attorneys for interested railways and shippers touching the reasonableness of the proposed advances in western territory. The case was submitted to the commission. Its importance was said tonight to be the basis for the belief here that it will be decided during the summer. Chairman McCord of the commission announced that hearings scheduled for Chicago next month on proposed increases in the same territory on commodities other than those on which argument here has been made will be cancelled by the commission since the carriers have agreed to suspend these proposed advances until September.

## LEADERS ISSUE MANIFESTO TO FELLOW TRADE UNIONISTS

LONDON, June 26.—Trade union leaders today issued a manifesto, addressed to their fellow trade unionists, calling attention to the serious position of the British and Russian armies in the field in consequence of the shortage of munitions. The manifesto appeals to every skilled workman of the engineering and allied trades who is not at present engaged upon war work to enroll himself as a volunteer in this hour of need.

It is signed by Arthur Henderson, chairman of the labor party in the house of commons, Charles W. Bowdler, labor member of parliament for Deptford and other prominent trade unionists.

## TWO DEAD; TEN ILL FROM EATING TOADSTOOLS

West Franklin, Ill., June 26.—Two men are dead and ten other persons are seriously ill here today as the result of including toadstools in their picnic luncheon. The dead are Carlo Muzzarelli and Dominio Mulano.

Those ill are members of the dead men's families. Little hope is held out for the recovery of five of those taken ill.

## GOV. DUNNE ARRANGES HEARINGS ON BILLS

### EXECUTIVE WILL LISTEN TO ARGU- MENT ON MEASURES MONDAY

Objections Have Been Made to the Approval of Fourteen Bills and Arrangements Have Been Made For Hearings on All of Them.

Springfield, Ill., June 26.—Announcement was made today of the hearings arranged by Governor Dunne to be held next Monday on various bills passed by the forty-ninth general assembly. The hearings will be held in the executive office in the state house and all persons interested are invited to be present. Objections have been made to the approval of fourteen bills now in the hands of the governor and arrangements have been made for hearings on all of them.

In addition to objections to these measures, Governor Dunne will listen to arguments on the other side by proponents of the bills, if they desire to be heard.

Following is a list of the important bills in question and the hours fixed by the governor for the hearings:

9 a. m.—S. B. 108 and 347.—Changing the fees paid to the state by public utility corporations. Objection is made that these two bills would decrease the revenues of the state almost half a million dollars yearly.

10:30 a. m.—S. B. 327.—Senator Hull's bill permitting the City of Chicago to turn over submerged lands to park commissioners in a way to not interfere with the construction of an outer harbor at a future date, also house bill 571, Representative Rothchild's bill permitting the city of Chicago to release its rights to submerged lands to park commissioners.

11 a. m.—H. B. 9.—Providing for state regulation of the practice of optometry.

2 p. m.—H. B. 143.—Prohibiting the leasing of tipping privileges in hotels, cafes and other public places.

2:30 p. m.—H. B. 185.—Creating the office of state inspector of masonry, public buildings and works, and providing that such officials and his assistants shall be practical masons.

3 p. m.—Providing that in townships which have no high school the high school tuition of eighth grade graduates shall be paid in some outside high school, out of the distributable fund of the county.

4 p. m.—Creating a board of censors for moving pictures, under the control of the secretary of state.

4:30 p. m.—Permitting corporations to own real estate not exceeding 80,000 square feet in area for office building sites.

5:30 p. m.—Amending the law in relation to oil inspection fixing the fees to be paid for inspection and permitting inspection at the source as well as at the destination of shipment.

## RUSSIANS COVER RETREAT OF ARMIES BY VIGOROUS DEFENSE

Choose Ground Along Middle Course of Dniester Because It Offers Greater Natural Advantages.

Cologne, via London, June 26.—The Russians are covering the retreat of their armies from Galicia by a vigorous defense along the middle course of the Dniester rather than to north of Lemberg, because the ground in the district where they are now making a stand offers greater natural advantages according to an explanation of the present situation printed by the Gazette.

A further barrier to the advance of the Austro-Germans is offered by strong fortifications thrown up by the Russians at Kamionka, northeast of Lemberg; Busk further south on the Bug River and at Zlocowaz almost due east of Lemberg with which it is connected by rail.

The Gazette says it is expected however, that the advance of General Von Boehm-Ermolli's army soon will result in a more rapid movement on the north bank of the Dniester.

## SHOOTS WOMAN; KILLS SELF.

Burlington, Iowa, June 26.—Herman Schnitzler, former policeman and now night watchman for the Burlington road here, shot and dangerously wounded Mrs. Ida Summers late this afternoon and then committed suicide. The tragedy occurred in a rooming house owned by the woman. Jealousy is said to be the cause of the trouble.

**REV. THEODORE FLOOD DIES.**

Meadville, Pa., June 26.—Rev. Theodore L. Flood, one of the best known men in the Methodist Episcopal church died at his home here tonight. Rev. Flood was associated with Bishop John H. Vincent in founding the Chattanooga institution and was founder and for twenty five years editor of the Chattanooga magazine. He was 74 years old.

**EDITORS OF NATION MEET.**

Los Angeles, Cal., June 26.—The National Editorial association will open here tomorrow its annual convention. Many leading editors are arriving from the east and an interesting discussion of the present phases of the newspaper business is anticipated. After the convention, the blue-pencil welders will go to San Francisco for the World's Press Congress, which opens on July 5.

## PAPERS ARE FILED IN FIRST ATTACK ON FEDERAL INCOME TAX

Assert Stockholders in Corporations Are Subject to Liability for Gains and Profits Which Have not been Divided.

Washington, June 26.—Papers were filed here today in the first attack in the supreme court on the constitutionality of the federal income tax which promises to be the most important case before the court next term. Counsel for John F. and Horace E. Dodge of Detroit, Mich., filed a brief of argument attacking the surtax on income of individuals.

Stockholders in corporations, it is asserted, when computing their surtaxes are subjected to liability for the gains and profits of the corporations which have not been divided or distributed.

It is charged that the provision vests in the secretary of the treasury an arbitrary power of determining without a hearing whether any corporation has accumulated a greater undivided surplus than is reasonable for the needs of the business.

A third reason is that a provision permits corporations to accumulate and withhold from surtax taxation such part of their profits as may have been reasonably necessary for the needs of business and does not accord such business privilege to individuals and partnerships.

It is urged that corporations are thus favored by a "most invidious discrimination."

The case was begun to prevent the collector of internal revenue at Detroit from collecting a surtax on each of the dogers of approximately \$45,000 for the year 1914. The federal district court in Michigan declared the tax valid.

## PAYS HIGH TRIBUTE TO LOVE OF JUSTICE OF AMERICAN NATION

President of French Chamber of Deputies Speaks at Dinner of English and American Correspondents.

Paris, June 26.—"There are no neutrals when it is a question of civilization," said Paul Deschanel, president of the chamber of deputies, at the annual dinner tonight of English and American correspondents in Paris.

M. Deschanel paid a high tribute to the great love of justice and right which the American nation possesses and concluded with a toast to the presidents of the French republic and the United States and the king of England.

The American ambassador, William Graves Sharpe, M. Somerville Story, president of the Anglo-American press association; Georges Ponsot of the foreign office, Emile Laurent, the prefect of police and others made addresses.

## PLAN ANOTHER IRRIGATION PROJECT.

Yone, Cal., June 26.—Definite plans for a huge irrigation project, covering 200,000 acres in Amador county, will be formulated here today at a meeting of the Yone Valley Development association. A petition for the organization of the irrigation district will be circulated this summer, and it is believed enough land owners will endorse it to carry the project through. The water for irrigation will be drawn from the mountain streams and stored on the present site of the town of Volcano.

## HUERTA ADHERENTS ENROUTE TO EL PASO

### ARE BELIEVED TO BE PREPARING FOR NEW MILITARY MOVEMENT

Huerta's Secretary Denies Former Dictator is on Way to Border—Carranza Commander Meets Severe Defeat at Mexico City.

**BULLETIN.**

EL PASO, June 26.—Victoriano Huerta passed through Tucumari, N. M., tonight on an El Paso & Southwestern train bound for El Paso according to advices from Tucumari. The train is due here at 6:30 Sunday morning.

Washington, June 26.—Official news of a severe defeat of the Carranza forces advancing on Mexico City was overshadowed in interest today by announcements from both the Carranza and Villa agencies here that a large party of Huerta adherents, former military commanders and legislators, were enroute to El Paso, presumably with the intention of starting a new military movement.

**States Huerta Is in Party.**

The Villa agency's announcement communicated to the state department stated it had a report, which however, was not positive, that Victoriano Huerta was among those in the party. General Huerta's secretary in New York however, denied that the former dictator was on his way to the border.

General Huerta left for the west last Wednesday and it was reported that he was bound for San Francisco. The Carranza agency in a statement charged that General Felipe Angeles, Villa's chief lieutenant now in the United States, came to set the new movement afoot.

**Regard Fast as Significant.**

The fact that the Carranza and Villa agencies agreed that a new movement was afoot in Mexican affairs was regarded as significant. While such a movement has been rumored for several months and many conferences have been held in the United States by Mexicans identified with the Diaz and Huerta administrations no effort thus far has been made to gain a military foothold in Mexico. The fact that both the Villa and Carranza agencies here indicated in their announcements that they expected the United States in some way to use its influence toward preventing the former federalists and their supporters from re-entering Mexico was regarded in some unofficial quarters as likely to impress the present factions that they must reconcile their differences if they wish to get the moral support of the American government.

**Gonzalez Suffers Defeat.**

Reliable reports reached here through official channels tonight that General Pablo Gonzalez, Carranza commander, has met with a severe defeat by the Zapata troops in his effort to capture Mexico City. Details still are lacking. A brief report that General Carranza had ordered all available rolling stock from Vera Cruz to assist General Gonzalez, however, tended to confirm previous intimations that General Gonzalez had suffered a decided check. For nearly a week Mexico City has been isolated from the outside world by rail and wire and the American government does not know whether or not the fighting affected the safety of foreigners or their property.

**Vera Cruz Newspapers Silent.**

The state department's summary of conditions in Mexico revealed today that the silence of newspapers at Vera Cruz on the campaign again in Vera Cruz that General Gonzalez had met with reverses. Officials generally were of the opinion that if the forces of General Carranza continue to meet with reverses the possibility of peace as between the factions might be more favorable, since the Carranza faction hitherto stimulated by military successes had been uncompromisingly opposed to peace proposals.

**Outline New Program.**

San Antonio, Texas, June 26.—Elimination of General Villa and coalition with Villa's chief lieutenant Felipe Angeles; selection of Vasquez Tagle as provisional president and the restoration to power in Mexico of a party headed by Victoriano Huerta former dictator, is the outline of a new program in Mexican politics which will be adopted at a conference of elements antagonistic to the other revolutionary leaders now gathering in El Paso. This statement was made here tonight by Eduardo C. Herreza, a former Villa commander and taken in connection with incidents of recent date attracted widespread attention among followers of the Mexican situation. Victor Huerta, nephew of General Huerta with a number of former leaders under Huerta's administration including Generals Ignacio Bravo, Jose Alvaro Robles and C. M. Suarez, left here today for El Paso where it was rumored they would be joined by General Huerta next week.

"The El Paso conference is to decide how Villa may be gotten out of Mexico and Tagle elevated to the presidency," said Herreza who intimated that other details of the campaign probably had been settled already.

**MISSIONARY MEETING.**

The missionary society of First Baptist church will meet Thursday, July 1, 8 o'clock. "The Baptist Fleet." Mrs. A. P. Williamson, leader. Hostess Mrs. Eli Crawford.

#### Genius.

In this old world there is little that counts other than service and the natural worker is the world's best citizen. It was something that Richard C. Cabot meant when he wrote "We are accustomed to think of genius mostly in the field of fine arts, but I believe that all the unconscious by-products of faithful work are fashioned from the stuff of genius. Genius has its part in industrial invention, in scientific discoveries, in good jokes, in the happy grace of a skillful hostess." It is this week the every day work seems burdensome, remember that your evidence of genius is to be given through faithfulness in service.

The resolutions passed by the third ward Democratic club indicate that the local Democracy is divided in allegiance to Governor Danne. Incidentally this lack of enthusiasm for the Danne administration is said to be based upon the failure of the executive to hand out as many Morgan county jobs as were hoped for at the beginning of his administration. Fortunately or unfortunately Edward Lonergan, who is holding a state job, was not present at the meeting Wednesday night. As he will have no trouble in proving an alibi he certainly cannot be accused of disloyalty to his chief by a change of allegiance to the Pike county congressman.

#### French Finances Sound.

And still another evidence of the wide belief abroad that the European war is nowhere near the end is seen in the recent action of the French government when the chamber of deputies passed a bill appropriating \$1,120,000,000 to cover government expenses during the next months beginning July 1st. The vote on the proposition was significant, too, as indicating the feeling of the people on the war question, for there were 429 affirmative votes and but one against it. The minister of finance emphasized the necessity of the government buying at home as much as possible, but stated that French credit is intact and notwithstanding the enormous demands, France has thus far experienced no monetary embarrassment.

#### Not Propitious Time for Peace.

Jane Addams who has been for weeks engaged in a mission of peace in Europe, according to a statement issued from London has met with very courteous treatment everywhere but with little encouragement as to the success of her mission. In a statement recently issued Miss Addams said as much and admitted reluctantly that she was now firmly convinced that peace overtures at the present time would be fruitless. She declared that in all of the countries visited that the leaders were willing to talk with her left no doubt in her mind that they all believe that the war will continue for an extended period. It seems from Miss Addams' interviews that there were better chances for settling the trouble between the nations by agreement and arbitration some six months ago than is now true. Conditions are such that it is certain the end of the conflict is nowhere in sight.

#### Some War Headlines.

Chicago, Post—Today the headlines read: "Britain to Starve Out Germany."

About fifty-three years ago they may have read: "North to Starve Out the South."

Forty-five years ago they read: "Germany is Starving Paris."

Six months ago they read: "Germans Starve Belgium and Levy Big Fines as Well."

On "Ded Tag" they read: "Von Tirpitz to Starve England by Submarines."

If we try to make sentiment our guide in the questions raised by the English note, the headlines tell us how impossible it is to hold one side guilty and the other guiltless.

Germany is seeking to "starve" England and England is seeking to "starve" Germany, just as the North actually "starved" the South in the American civil war.

America has tried to prevent each power from carrying out its "starvation" policy in so far as that policy has hit the rights of neutrals.

She has asked Germany to limit the use of the submarine, the German weapon of "starvation." She has asked England to limit the "rowing blockade," the English weapon of "starvation." She does this not because each is trying to "starve" the other, but because each in the process has infringed America's rights.

This is as far as America can go or should go, unless she wants to enter the war on one side or the other.

Presbyterians to Honor John Huss.  
The 500th anniversary of the martyrdom of John Huss, a cele-

brated Bohemian preacher who had escaped the flames of Wicliffe, will be celebrated in the Presbyterian and Reformed Presbyterian churches of the world tomorrow. At the general assembly last month at Rochester, N. Y., June 27th, was named as the day for the formal exercises in honor of the martyr.

The burning of John Huss at the stake on June 22, 1415, was executed by order of the Council of Constance, called to suppress Wicliffe and his followers. Jerome of Prague, his intimate friend, who came to the Council to support and second him, received the same treatment. After the death of Huss many of his followers took up arms. They defeated the Emperor Sigismund several times but were finally worsted and signed a peace agreement. The pacific section of the Hussites existed in the time of Luther and were called "Bohemian Brethren."

The followers of Huss gained by treaty the right to the free exercise of their religion.

#### Advertised Goods Really Cheapest.

During recent years mainly through the influence of business men who are not advertisers the idea has gained some ground among the people that advertising increases the cost of the article exploited. To offset this idea and to acquaint the public with the real facts and values of advertised products and non-advertised, the associated advertising clubs of the world at their convention in Chicago appointed a committee to conduct a campaign of education. And of even more importance was the action taken in laying plans to increase the efficiency of the vigilance work of the association directed against dishonest advertising. This action is wholly consistent with the slogan of the organization "Truth," and the following after basic principle the members of the association realize will be certain to eventually increase their business and better the condition of advertising generally.

#### A Question of Patriotism.

An unusual question has presented itself for solution in Washington as to whether or not army officers have the right to surrender their commissions in time of peace and go out of the service. This situation has been caused by the great increase in the manufacture of war munitions, the increase resulting in attractive offers to expert ordnance officers of the army by manufacturers. Four resignations of officers were recently tendered and accepted before any special attention was given the matter. Legal authorities who looked into the question have given the unofficial opinion that such resignations are wholly legal and cannot be prevented. Doubtless, however, if resignations continue to come and the danger of the European complications increases there will come an appeal to patriotism which will make it very unlikely that any officer of prominence will wish to subject himself to possible criticism simply for the purpose of accepting a high salary position as a civilian. Still further concern has been occasioned by the government by receiving resignations of so many scientific men and skilled mechanics who have left the government arsenals and powder plants for private service.

#### Chicago to Get G. O. P. Convention.

While it has not been absolutely settled where the Republican national convention will be held next year, it now seems certain that Chicago will be the convention city. Frederick W. Upham recently told members of the Hamilton club that he had the pledges of thirty out of fifty-two national committeemen that they would favor Chicago.

Unless somebody breaks a pledge the Republicans will, therefore, surely gather in the big city next summer, and conditions for that convention promise to be very much in contrast with those which prevailed in June 1912. At that time the G. O. P. was sadly divided because of the disaffection resulting in the formation of the Progressive party. The strife at that time is a matter of political history, and suffice it to say that when the convention adjourned after making nominations and adopting its platform, every delegate who had taken part in the proceedings was well aware that the party was doomed to defeat in the election following.

Yet a great deal of good has come from the differences at that convention, and such changes were subsequently made by the national committee in the matter of representation that party differences have since been practically buried.

The past year has shown the gradual dissolution of the Progressive party and the welcoming to the Republican party of the return of the Progressives, and all seemingly without ill-feeling. So the conditions now indicate a national convention with a united party and a party confident of success at the election following.

Several things have contributed to this condition—the changes which corrected some errors of the past, the "hindsight" which so often points out the foolish things done politically, and then that larger influence of the knowledge that the Republican party must do something to bring to pass the return of business prosperity. While the war in Europe has interfered with exports to some extent, they are active in the shipment of war munitions and supplies and have thus offset the export losses which have resulted from the great conflict.

Without the war the business of this country would be in a sorry

condition, indeed, and the business interests of the country are realizing that the unsatisfactory conditions which have prevailed have been the result of the change in the national tariff policy.

#### SOME FARM TOPICS.

Although only one week has passed without a rain it seems to be the condition that many Morgan county farmers will soon be complaining because the ground is too hard for ready cultivation. In a few localities land not well tilled is so wet that the planting work has not been completed but in most instances the past week has been one of great activity and many thousands of acres of corn have been cultivated. Charles A. Rowe said yesterday that the extremely heavy rains, followed by the hot, dry days, had served to so bake the ground in a great many corn fields that it was very difficult to plow. He said that unless rain comes within a week that the condition will be more serious than would have been true in time of drought. He emphasized the fact that while farmers complain a great deal when there is a shortage of rain, that it is possible to use such farming methods as will remedy the defect, but when there is an excess of rain, followed by a drought, that the condition is far worse. But no great damage from the lack of rain has yet occurred and it is very probable that the weather man will shortly make some satisfactory predictions.

Charles B. Joy said Saturday that he was engaged in the unusual work of planting corn in the later days of June. He has a field of oats which was so cut to pieces that there was absolutely nothing left after the heavy hail storm of two weeks ago. Just as soon as he could he had the field plowed and prepared for corn and yesterday the planting work was done. He is not using the 50-day variety, although it is so late in the season, for the reason that he intends to put the corn from this field into his silo and it will not be necessary, therefore, for it to mature like corn which is to be gathered in the ordinary way. Mr. Joy has one field of wheat which was damaged by the hail which he expects to attempt to cut, but in another field the damage was so serious that there is really nothing to take a binder into the field for. As clover was planted with the wheat he cannot plow up the field for any other purpose without losing this crop and so there is nothing to do but to let it stand.

Several fields on the lands of the C. S. French estate near Chapin were severely damaged by the recent hail storm. A. L. French, who has charge of the lands, will try an unusual experiment with one of the fields of oats. Right after the hail storm this field was so riddled and cut that it seemed certainly a total loss and the intention was to plow it up. A few days later Mr. French noticed that the plants were beginning to stool out anew and such satisfactory growth has been made that he believes there is a chance of an entirely new growth reaching the normal size and maturity. This is not apt to happen unless the season proves just right, but the indications are now that while the second growth will not by any means equal the heavy first crop that was in promise, that it will nevertheless prove of considerable value. In a wheat field the grain was so scattered that there is nothing left to harvest, but like one of the fields on Mr. Joy's land, this one has a good stand of clover and so cannot be plowed up. Instead Mr. French intends later on to turn in a drove of hogs and thus get something out of the field which for a time looked like a total loss.

A year ago a well known and successful farmer of this county told some new oats the White Cluster of New York. Last year they didn't do very well and he and his neighbors who had paid \$2.50 a bushel for the seed felt they had made a bad bargain but they sowed them again this year and are delighted with the prospects and think their money for seed well invested. It is said the grain is white, remarkably clean and free from dust and yields largely.

There will be a glorious dawn; We shall meet to part—no never!

On the resurrection morn,  
Thy tiny darling form lies sleeping  
In the cold and silent tomb,  
Thou shalt have a glorious waking,  
When the blessed Lord doth come.

Thy gentle voice now is hushed,  
Thy warm true heart is still,  
And on thy white and peaceful brow  
Is resting death's cold chill.  
Thy hands are clasped upon thy breast,  
I have kissed thy lovely brow,  
And in my aching heart I know,  
I have no help-mates now.

Through all pain at times she'd smile,  
A smile of Heavenly birth;  
And when the angels called her home,  
She smiled farewell to earth.

Heaven retaineth now our treasure,  
Earth the lonely casket keeps;  
And the sunbeams love to linger,  
Where our dear loved one sleeps.

Weep not that her toils are over,  
Weep not that her race is run,  
God grant we may rest as calmly,  
When our work, like hers, is done.

'Til then we yield with gladness,  
Our dear one to Him to keep,  
And rejoice in the sweet assurance,  
He giveth His loved ones sleep.

Call not back the dear departed,  
Anchored safe where storms are o'er,  
On the border land we left her,  
Soon to meet and part no more.

When we leave this world of changes,  
When we leave this world of care,  
We shall find our missing loved one  
In our Father's mansion fair.

Harold Sanders, the 8 year old son of Mr. and Mrs. C. D. Sanders, of 470 South East street, who has been ill for the past five weeks with typhoid fever, is now convalescing, but not able to sit up for a long time.

Mrs. Michael White, who lives at 223 South East street, who was taken to Our Savior's hospital for operation is doing nicely and hopes to go home in a short time.

## OPEN HOUSE FOR FRIENDS

Several of the children of Mr. and Mrs. W. H. Richards have arrived in the city to attend their parents' Golden Wedding anniversary Monday. In the afternoon open house will be kept and no doubt many friends will visit the home to extend congratulations.

## ATTACKS DYNAMITE GRAND JURY.

Los Angeles, Cal., June 26.—Representations will be made to the superior court here on Monday in the interest of Milton A. Schmidt and David Caplan, alleged accomplices of the McNamaras in the dynamiting cases, that certain members of the grand jury which indicted the accused men had been selected or suggested by an official of the Merchants' and Manufacturers' association.

Of a sensational nature is the material already made public. With the motion to dismiss the indictments for murder returned against Schmidt and Caplan, there has been filed with the court a letter alleged to have been written by F. J. Zeehandler, secretary of the Merchants and Manufacturers, to Earl Rogers, a lawyer, who was then interested in the prosecution of the McNamaras and their confederates. This letter contains a list of grand jurymen who were "with" the association as against labor unions. Three of the men thus O. K'd by the Manufacturers' secretary finally served on the grand jury which indicted Schmidt and Caplan.

The publication of the letter has created a little stir among workmen of the west. Zeehandler, when shown a copy of the letter, stated that he recalled having written it. He declared the letter was written in answer to a query of Attorney Roberts relative to what he knew concerning the men drawn for grand jury duty. Rogers, who was an attorney for the manufacturers, became a special assistant district attorney when the grand jury was impeached and the investigation began into the dynamiting of the Los Angeles Times building.

## NEW GARAGE AND FEED STORE PLANNED.

A story was current Saturday that John Cherry has leased "the annex" on the east side of North Main street, and that a garage and feed store will be opened there about July 1st. If this is done the horse, carriages and harness which have been housed there will be moved to the main building on the west side of the street. Percy Cherry was asked about the story last night and said that while something of the kind was under consideration that no definite deal had been consummated.

Mrs. Cora Dollivan of St. Louis is visiting her sister, Mrs. T. F. Douglas on South Main street.

Harry Herring will go to Winchester this morning in his Buick automobile.

## Trust Company Service

That the highest degree of efficiency in the administration of estates is attained by trust companies is becoming well recognized. Wealthy and far-seeing men commit the management of their estates to trust companies because their wisdom and experience prove this course to be safest and best.

Why should not the family of the man of moderate means enjoy the advantage and protection afforded by trust company service? Prompt, efficient administration that will conserve the small estate and protect its beneficiaries is far more important to the family of moderate means than to the one of wealth.

This company gives the small estate the same careful attention as the large one. Its fees are controlled by law, cannot be greater than those allowed individuals, and in most cases, considering the service rendered, are less.

## MAVERICKS

Oh, things are mighty joyous these democratic times, the old bell of prosperity is cracked and seldom ever chimes. Price of meat is going up, while corn and wheat go down, and men are wearing out their pants in country and in town polish, ing off park benches and hitching racks and such, and argue that the country don't amount to very much. But then the pasture's mighty green and the crops are looking fine, and we are not engaged in war so why should we repine. The sun is shining mighty hot and we're getting lots of rain, so let's join our voices in a song and raise a glad refrain.

### MISS RUTH KINMAN MARRIED

#### TO PROMIENNT DENVER MAN

Bride is Daughter of Late Edward M. Kinman—Wedding a Notable Denver Society Event.

Mrs. John N. Ward of North Church street, has received word of the marriage of her niece, Miss Ruth Kinman, formerly of this city, to Edwin Inslee Thompson. The ceremony was said in Denver, Colo., June 19. The Denver Post gave an extended notice of the event which was one of the social features of the Denver social season. The Post said:

"The wedding was one of the most interesting social events of the season owing to the prominence of the young people, who are leaders in the younger social set.

"Pink and white was the color scheme, the rooms being lavishly decorated with large pink peonies, bride's roses and quantities of palms and ferns.

"In the spacious living room where the ceremony was performed the mantel was banked with palms and feathery ferns started with bride's roses and peonies, while baskets of these beautiful flowers tied with huge bows of tulle were arranged effectively throughout the rooms.

"The same sweet simplicity that has always been characteristic of Miss Kinman marked her wedding, and while 125 close friends and relatives witnessed the ceremony there was nothing ostentatious about the affair.

"Miss Kinman is a petite brunette extremely pretty and of a sweet, retiring and unaffected manner, that is most refreshing, and has made her one of the most sought after young brides in her social set.

"She is the daughter of Mrs. Nellie Kinman and was graduated from Miss Wolcott's and later from Miss Bennett's school in New York and was formally presented to Denver society a little more than a year ago."

Miss Kinman's father, the late Edward Kinman, was for many years a resident of Jacksonville and was a prominent attorney of this city. He removed to Denver a number of years ago.

CHARTER REPEAL BILL  
IS SIGNED BY DUNNE

NEW SCHOOL MANAGEMENT  
PLAN TO BE EFFECTIVE  
MARCH 1ST.

Board of Education Will Consist of  
Nine Members and a President—  
Township Treasurer Will Handle  
Funds—Method of Levying Taxes  
Explained—Change in Tuition  
Law May Lessen Revenue.

According to advices from Springfield Governor Dunne has signed the Curtis bill repealing the Jacksonville school charter, the same to become effective March 1st next. On that date the schools of Jacksonville district will automatically pass under the operation of the general school law and it will be necessary to choose a new board of education. Under the general law the board will be composed of nine members and a president, and an election will be held on the third Saturday of April each year.

At the first election nine members and a president will be chosen and subsequently the members will draw lots to determine which three shall serve for three years, the three to serve two years and the three to serve one year. The term of the president of the board is for one year. At each succeeding election, therefore, three members of the board and a president will be chosen. The members of the board will be elected at large and not by wards, and any legal citizen, male or female, may become a candidate.

**The Treasurer's Duties.**  
Under the general law the township treasurer instead of the city treasurer becomes the custodian of the school funds. Under the special charter the city treasurer was by virtue of his office the treasurer of the board, and after the school tax has been collected by the sheriff he turned the funds over to the city treasurer. When the new law goes into operation the sheriff will turn over the school funds to the township treasurer. The same rule will apply with reference to the city's share of the distributive school fund. Under present conditions when the money is received from the state from the distributive fund it is paid after the order has been given by the county superintendent of schools. The treasurer of the township under the general law this payment will be made to the township treasurer.

In the past the method of handling finances has been for the board of education to certify to the city council the amount of funds which will be necessary for general school and building purposes and the council passes a tax levy ordinance and transmits the same to the county clerk for the extension of the tax upon the books. Under the general law the board will make up its tax levy and file it with the township treasurer, who in turn will transmit it to the county clerk for extension. Jacksonville is located in township 15-10 and the present township trustees are W. A. Crawley, C. S. James and Frank Wingler, and the township treasurer is Edward M. Dunlap.

**Board Controls Fund.**  
At the next election, which will be held in April, one trustee will be chosen. The law provides that not more than one trustee in a township can come from the same voting precinct, so that will not be possible for Jacksonville at any time to elect more than one township trustee. Some objection has been made in times past to the general law on the ground that the management of all school finances would be turned over to a board of trustees, at least two members of which were non-residents. After reading the law, however, this point does not seem to be material from the fact that the trustees in reality do not have anything to do with the amount of taxes raised or with the handling of the money after its collection. Their only connection with the school matter is that the trustees appoint their treasurer and he automatically becomes the custodian of the school funds. The only difference in this regard is that under the general law whoever happens to be township treasurer will be the treasurer of the board, while in the past whoever happened to be city treasurer was the treasurer of the board. The board of education has authority to name a clerk and fix his salary.

A new law which was passed by the present assembly requires that township elections shall be held under the Australian ballot and that will be true next spring when the township election is held in 15-10. In the past township elections have been somewhat informal as a rule, the trustees themselves serving as election officials. Under the new order nominations must be made by petition and all the other details of the Australian law be carried out. It is unnecessary to say that the next township election here will have more than former interest from the fact that the trustees will have the power of selecting the township school funds.

**The Tuition Law Change.**  
The facts given above with reference to the operation of the school law were secured in conversation with County Superintendent Vasconcellos. The general school law is quite an extensive document occupying many printed pages, and a resume of all its details in one newspaper article would be impractical. Superintendent Vasconcellos was asked Saturday with reference to his understanding of the changes made in the free tuition law, but was unwilling to make any statement because he was not certain as to just what amendments might have been made in the law during the closing days of the legislature, although he was familiar with the

measure as originally introduced. The Danville school board has been sending messages to other cities urging them to work against house bill No. 357 making changes in the tuition law and which is now awaiting the governor's signature.

According to the Danville point of view, the bill if it becomes a law will deprive cities of a considerable share of the distributive school fund. Under the proposed law it is said the tuition of pupils who go to a high school outside of the district in which they live and in which there are no high school facilities, will be paid out of the general distributive fund instead of being paid from the individual fund of each school district in the past. This it seems would result in materially lessening the funds to be distributed, and as the larger portion of the fund has in the past gone to the cities, their revenues would be correspondingly reduced.

For example, last year Morgan county received about \$16,000 as its portion of the state distributable fund and out of this total sum Jacksonville received \$7,181.41. Thus it is argued, for example, that if out of a like sum of \$16,000 that \$8,000 were paid out for high school tuition, that the total amount received by the Jacksonville school district from the distributable fund thus reduced would be about \$4,000. But, as stated, all of the details as to amendments made to the law are not known by Jacksonville school men.

GREAT INTERESTS AT STAKE  
IN NEXT GENERAL ELECTION

Many Changes Must Take Place if  
Republican Party Is to Put Its  
Policies Into Laws.

Washington, June 26.—Much more is at stake in the next campaign than the election of a republican president and house of representatives. The political complexion of the United States senate must be changed if the republican party is to be placed in a position to enact its policies into law.

Unless this is done the Underwood tariff and other injurious legislation which the democratic party has inflicted upon the American people cannot be repealed.

There are thirty-two states in which senatorial elections are to be held next year. These thirty-two states are now represented in the senate by 17 democrats, 14 republicans and 1 progressive. The latter, Senator Poindexter of Washington, has announced his affiliation with the republican party, so that the figures should stand 17 to 15. As the present democratic majority in the senate is 16, republican successors to nine democrats must be elected in order to give the republicans control. The accomplishment of this result is now the determined effort of republicans.

The seventeen democratic senators come from Arizona, Florida, Indiana, Maine, Maryland, Mississippi, Missouri, Montana, Nebraska, Nevada, New Jersey, New York, Ohio, Tennessee, Texas, West Virginia and Virginia. Of all these states only four—Florida, Mississippi, Texas and Virginia—it is practically certain that republicans will be elected. Maine has swung back into the republican column and in the last election New York and Ohio returned republican senators, while New Jersey and West Virginia, in by-elections, have demonstrated that they are back again in the republican fold.

This leaves only eight states—Arizona, Indiana, Maryland, Mississippi, Montana, Nebraska, Nevada and Tennessee—in the doubtful column, and in each one of these states the republicans have more than a fighting chance for success. If they carry four of these eight states they will control the senate.

The outlook is most encouraging. The election of Senator Newlands of Nevada last year was a matter of doubt for some days, so close were the figures. The republicans ought certainly to carry Nevada next year. Indiana, now that the progressive party has disintegrated, is almost sure to be in the republican column again, while the Bryan-Hitchcock feud in Nebraska affords the republicans an excellent opportunity for carrying that state. It was formerly safely republican. Missouri and Tennessee offer splendid fighting ground, while Maryland had a republican senator until recently. With the tide running strongly in favor of the republicans, several of these states ought to elect republican senators.

But victory will not be secured unless republican voters in these states are thoroughly aroused to the need of electing republican senators. The election of a republican president and a republican senate would successfully block any effort to repeal the Underwood tariff law and thus compel the country to suffer for two years more under its iniquitous provisions. The country has had enough of the disastrous free trade fallacies of the democratic party and only with the repeal of the present tariff law will prosperity return. The European war has served some of the purposes of a protective tariff and has created an enormous demand for American production, but no nation can easily base its economic policies upon the assumption that other nations will continue a war indefinitely.

The tremendous republican gains in the last election, when the overwhelming democratic majority of nearly 150 in the house was almost completely wiped out, makes the election of a republican house next year a foregone conclusion. But the senate must also be republican. This is to be the slogan of the next campaign.

Mrs. John Borchneider and son Leonard and Miss Nettie Gray of Alexander were visitors in the city Saturday.

## CARDS BREAK CUBS' WINNING STREAK

### WIN FINAL GAME OF SERIES 4 TO 3.

Wildness of Vaughn and Zabel, Coupled With an Error by Archer, a Double Steal by Butler and Miller and Opportune Hitting Give St. Louis the Game.

Chicago, June 26.—St. Louis broke Chicago's winning streak today when they won the final game of the series 4 to 3. The wildness of Vaughn and Zabel, coupled with an error by Archer, a double steal by Butler and Miller and opportune hitting gave the visitors the game. Sallee was hit hard but was given support bordering on the sensational, the fielding of Miller and Beck being a feature.

Becher turned his ankle in fielding a drive to the outfield and retired.

### Boston 7; New York 5.

New York, June 26.—The New Yorks and the Champion Boston evened the present two game series with New York by taking the game today in a ninth inning rally 7 to 5. In the ninth with men on second and third and one out, Marquard purposely passed Gowdy but Rudolph singled, scoring two runs and a third came in on Snodgrass' wide return. Two more runs were scored on Fitzpatrick's single, an infield out and a wild throw by Merkle.

In its half New York scored two runs, but was unable to tie the score.

Philadelphia 4; Brooklyn 0.

Philadelphia, June 26.—For the second time this month Alexander came within one safety of a no-hit mark when he pitched Philadelphia to a victory over Brooklyn today 4 to 0.

Wheat made a single in the eighth session. Alexander did not give a pass and was perfectly supported so that only 23 batters faced him during the game.

Coombs gave Alexander a great battle for six innings but he weakened after that.

So good was the work of the pitchers that there was scarcely a difficult fielding chance.

## NAPS TAKE PITCHERS' BATTLE FROM CHICAGO

### WALKER RECEIVES BETTER SUPPORT THAN BENZ.

Schalk's Failure to Catch a Pop Fly in Front of the Plate Starts Cleveland's Winning Rally in the Eighth.

Cleveland, O., June 26.—After dropping six straight to Chicago, Cleveland won today by 3 to 2. It was a pitchers' battle between Walker and Benz, in which the honors were even. Walker, however, was better supported. Schalk's failure to catch a pop fly in front of the plate starting Cleveland's winning rally in the eighth. Eddie Collins, after driving in Chicago's first run, retired because of a lame leg.

Angie Rattner, the national amateur 145-pound champion, is making his professional boxing debut in New York tonight against Jack Ward of Gotham.

Nat Browne and Claude Wayne, national clay court doubles champions, are not defending their title at the tournament of Pittsburgh, which opens today. They preferred to stay on the coast for the Long Beach tournament which opens next Thursday.

The feature of the Caledonian games at Montreal today is the five-mile road race.

## "MORNING GLANCES" (By Gosh)

Bush pitching for Philadelphia did not allow the Senators a hit after the third inning and the Athletics won by a score of 3 to 2.

The Cardinals won from the Cubs Saturday by a score of 3 to 2. The game was won largely through the wildness of Vaughn and Abel. Miller and Beck featured the game with their fielding.

Alexander the Great of the Phillies is surely a hard luck pitcher. About a month ago he went to the ninth inning with two out without allowing a hit then someone got a single. Yesterday's win for seven innings without a safety being registered then Wheat broke the spell with a single. The only one of the game. The Phillies won 4 to 0.

Weiland beat the Tigers yesterday 7 to 2. It was his third straight win over the Tigers in a week.

In the American league there has been no particular change. The White Sox outdid themselves the past week. They beat Cleveland six straight games the past week and easily maintained their lead. The Sox appear to be going better than any team in the American. If no bad luck befalls any of the regulars they look to be good to cop the flag.

Boston during the past week again overhauled Detroit and today are in second place. The race is close and the Tigers may go back to second any day. New York has been going good and are in fourth place with Washington fifth. The Senators are likely to overtake the Yanks at any time as there is little difference between them. Cleveland, St. Louis and Philadelphia bring up the rear.

After winning six from Cleveland the White Sox lost to the Indians Saturday by a score of 3 to 2. The main cause of the loss of the game was charged to Ray Schalk who failed to catch a pop fly in front of the plate in the eighth inning.

Eddie Collins after driving in one of Chicago's runs was forced to retire on account of a lame leg. It is to be hoped that his retirement is not for long as he is playing too good ball to be out of the lineup very long.

Cleveland only made four hits but coupled with Chicago's four errors they netted three runs.

The Braves turned the tables on the Giants yesterday when they won by a score of 7 to 5. Marquard purposely passed Gowdy but Rudolph crossed him and singled scoring two runs. Another came in on Snodgrass' wide return to the plate.

In the Nationals the Cubs are still in front. They further increased their chances by beating the Cardinals in the series just closed, although Huggins' men won the Saturday's game. The Cardinals were going good until they met the Cubs and looked good to get on top. However, they gave way to Philadelphia which is now in second place with the Cardinals third. The Pirates are in fourth place with the Braves fifth. New York, Brooklyn and Cincinnati are not very far behind the Braves and there may be a change within the next week.

Perhaps the best race is that in the Federal league. The past week has seen a great fight between Kansas City and St. Louis. The teams changed places three times in as many days. Today St. Louis is leading with the Kawfies a close second. It looks as though Fielder Jones has retained the cunning he possessed when he steered the old White Sox to a pennant and a world championship in 1905. At that time Jones was playing himself and was considered one of the greatest fielders in the business. He made champions out of a team that probably did not have a 300 hitter in its ranks. He has a little better hitting team now than he had then but the real reason he is winning is because he has got his men to playing to win instead of for individual records. The Chicago Whales have climbed to third place with Pittsburgh, Newark, Brooklyn, Baltimore and Buffalo in the order named.

EAGLES AND ASTORIA.

The Astoria White Sox will be the Eagles opponents at Nichols park this afternoon. The White Sox come with a reputation of having lost only one game all season and should take the game. The lineup follows:

Eagles: Denny, 2b; Wheeler, ss; DeFrates, 3b; Clark, c; Christopher, lf; Woodman, cf; McCollister, 1b; Stewart, rf; White, p.

Astoria: Nelms, rf; Basel, 3b; Hibbs, lf; Inman, c; R. Teaman, p; Parr, 2b; M. Teaman, 2b; Harmon, cf; Waggoner, ss; Butler, utility.

The park commissioners have been working on the road to the ball grounds the past week. While the work is still under way Automobiles can get across.

TARTAR WINS HANDICAP.

New York, June 26.—The twenty-sixth Brooklyn handicap at Aqueduct today was won by R. T. Wilson's five year old bay gelding Tartar, by Ogden Kankke Sister, carrying 103 pounds and ridden by Jockey Johnny McTaggart. The time was 1:50 3-5.

Romer finished second and Borcow was third.

## Face Eruptions Have Deep Significance

Often They Indicate Impurities Deep in the Tissues.

The results shown by S. S. S. in clearing the skin reveal how searching and how deeply this famous blood purifier attacks blood troubles. Facial eruptions are more often significant of impurities resulting from faulty elimination of body wastes. Most people realize this to be true. And yet it is a difficult matter to convince such people they should avoid these harmful drugs such as mercury, iodine, potassium, arsenic and so on. S. S. S. gives just as good effect without the destructive results, because it is more searching. It goes deeply into the circulation wherever the blood flows, but it does not remain to clog the system. And its effect is complete and thorough as indicated by blood tests. One of the strange things today is that so many people are wedded to the notion that mercury is the one antidote. It is not so. There is in S. S. S. a product of nature that is rated one of the most potent principles known for the complete elimination of blood troubles.

Whenever you go there are people who know this to be true from their own experience, for it has been clearly shown there is one ingredient in S. S. S. as essential to health if the blood be impure as the nourishing elements of the grains, sugars and salts of our daily food. Get a bottle of S. S. S. today if any druggist, but insist upon S. S. S. accept no substitute. And if your case is peculiar or of long standing, write to the Medical Adviser, The Swift Specific Co., 191 Swift Bldg., Atlanta, Ga.

## BAND CONCERT SUBSCRIPTION FUND GROWS SLOWLY

Lists Will Be Placed in All Drug Stores—Small Contributions Will Be Welcomed—\$500 Is Necessary.

The Jeffries band realizing that contributions are coming too slowly for the proposed band concerts have decided to place subscription lists in all the drug stores in the city to give citizens an opportunity to contribute. The month of June is nearly past and the members of the band realize that if any concerts are to be given that something must be done at once.

The total amount including the ten per cent added by the band to all contributions is \$220.55. It is necessary to raise at least \$500 in order to carry out the series of concerts contemplated. It is realized that many would be willing to give fifty cents or one dollar toward the fund but do not feel like placing it with either of the newspaper offices. The members of the band wish it understood that a small contribution is as much appreciated as a large one.

Subscription lists will be placed in the following drug stores on Monday: Gilbert, Alcott, Armstrong, Badger, Roberts, Obermeyer, Oswald and the two Coover and Shreve stores. It is to be hoped that citizens will respond liberally to the subscriptions to the end that the concerts may be started immediately.

## FLOWERS HAVE GREAT INFLUENCE ON THE HUMAN LIFE

Mrs. J. T. Agnew Recently Presented Paper with This as Theme—Interesting Anecdotes are Related.

At a recent meeting of the W. C. T. U., Mrs. J. T. Agnew presented a paper on "The Benefit of Flowers." The sentiment expressed and the language was such that those present by a unanimous vote asked that the paper be published and it is given herewith. Mrs. Agnew closed her paper with a poem of Longfellow's which could not be used at this time.

"I could tell you many stories of persons, who by considering the flowers have received good. You remember how Mungo Park was traveling in the desert, and as he thought to lie there and die, he caught sight of a little flower springing up in the sand by his side,—and, he thought, if God cares for the flower in the wilderness, he will care for me. You doubtless remember Piccola and his Prison fellow, how when despairing in his dungeon the flower came up through a niche in the floor, and how it taught him many a useful lesson, and kept him from despair. When John Bunyan went to the house of the interpreter and was led into his room the interpreter showed him all the beautiful symbols and said to him, 'Consider the lilies how they grow.'"

It was a cloud, now it has come forth out of the black earth, and as thou lookest on that remember all the beauty is God given. What a cloud he finds thee and how beautiful he can make thee. 'Consider the lily.' It was not always so. 'It drinketh up continually out of the cup into which the water is poured and so if you will continually receive the "water of life" which God will give thee, thou wilt grow in beauty and purity. 'Consider the lily' see from what it springs, and to what beauty it attains, and for what uses it blooms, and as thou considerest learn the lesson. It is well to go into the interpreter's room. Again how the universal heart of man blesses flowers. They are wreathed around the cradle; the marriage alter and the tomb. The Persian in the far east delights in their perfume, while the Indian child in the far west, claps his hands in delight as he gathers the abundant blossoms the "Illuminated Scripture of the prairies." The cupid of the ancient Hindus tipped his arrows with flowers, and Orange blossoms are a bridal crown with us. Flowers garlanded the Grecian altar, and hung in votive wreath before the Christian shrine. All these are appropriate uses. Flowers should deck the brow of the bride, for they are in themselves a lovely type of marriage. They should twine around the tomb, for their perpetually renewed beauty is a symbol of the resurrection. They should festoon the altar for their fragrance and their beauty ascend in perpetual worship to the Most High. Luther always kept a flower in a glass on his writing table, and when he was waging his great war with Eckins he kept a flower in his hand. Lord Bacon has a beautiful passage about flowers, and Shakespeare is full of flowers. They spring, blossom and wave in every cleft of his mind. Even Milton, cold, serene and stately as he is, breaks forth into gusts of tenderness and fancy, when he marshals the flowers. Flowers, of all created things, the most innocently simple and most superbly complex, playthings for childhood, ornaments of the grave, companions of the cold corpse in the casket! Flowers beloved by a wandering idiot and studied by the deep thinking man of science. Flowers, that of perishing things are the most beautiful. Flowers, that unceasingly expand to Heaven their grateful and to man their cheerful looks, partners of human joys, soothers of human sorrows, fit emblems of the victor's triumphs, and of the young bride's blushes. Welcome in the crowded halls, graceful in solitary places. What a desolate place would be a world without a flower. It would be as a face without a smile. Are not our flowers the stars of the earth. One cannot look closely at a flower without loving it. They are the emblems and ministrations of God's love to the creation—and they are the emblems and ministrations of man's love to his fellow creatures; for they first awaken in his mind a sense of the beautiful and good. Flowers seem intended for the solace of ordinary humanity, children love them, quiet, ordinary people love them as they grow. They are the cottager's treasure. Passionate or religious minds contemplate them with fond intensity. A gentleman who was invited to view a grand building, holding in his hand a small bouquet of pansies at the time said: "I see more of God in these flowers than in all the fine buildings in the world." And so it is—a tiny flower has carried joy to a sad heart, comfort to some discouraged, downcast one, and messages of a better world to many an afflicted one, and let us hope, through the influence of flowers, many may be led into a better life.

God might have made the earth bring forth Enough for great and small. The oak tree and the cedar tree, Without a flower at all. He might have made enough— Enough for every want of ours. For luxury, medicine and toil, And yet—have made no flowers. The clouds might give abundant rain. The nightly dew might fall,

And the herb that keepeth life in man, Might yet have drunk them all. Then wherefore were they made, e And dyed with rainbow light. All fashioned with supremest grace Upspringing day and night.

Springing in valleys green and low, And on the mountain high, And in the silent wilderness, Where no man passes by.

Our outward life requires them not. Then wherefore had they birth. To minister delight to man, To beautify the earth.

To comfort man—to whisper hope, Where'er his faith is dim, For whoso careth for the flower, Will much more care for Him. Mrs. J. T. Agnew.

### NOTABLE BIRTHDAYS TODAY.

June 27.

Brigadier General Oswald H. Ernst, U. S. A., retired, who served with distinction in two wars and commanded important engineering projects for the government, is 73 years old today. His forty-two years in active army service covered a wide range of usefulness. After graduating at West Point in 1894, he was assigned to the engineering corps of the Army of Tennessee and was promoted to captain for meritorious services. He was then sent to the Pacific coast to improve the fortifications. In 1897 he was sent to Spain as astronomer to observe the solar eclipse. On his return he was assigned to West Point, where he put in seven years instructing the cadets in practical military engineering, signalling and telegraphy. Eight years were then spent engineering river improvements in the west. His next assignment was at Galveston, where he inaugurated the work of deepening the channel. He served as engineer on numerous boards and had charge of the public buildings at Washington. He served five years as superintendent of West Point academy, up to 1898, when he was sent to Porto Rico in the war with Spain. He led a campaign there and on his return was made a member of the Isthmian Canal Commission. He also served on the Mississippi river commission and the international commission on use of the boundary waters between the United States and Canada. General Ernst was born at Cincinnati June 27, 1842, and was attending Harvard when appointed to West Point. He retired from active service June 27, 1906, and now makes his home in Washington.

Rev. Julius W. Atwood, Episcopal Bishop of Arizona, 58 years old today.

Dr. Heber D. Cistus, astronomer of Lick observatory, 43 years old today.

J. C. ("Rube") Banton, pitcher of the Cincinnati team, 25 years old today.

## JERSEY BUSINESS MEN CONVENE

## LAND O'NOD STORIES

## BILLY GOES A-FISHING

Billy Be By Bo Bum had coaxed his mother to let him go fishing. He had often been to the river with Big Billy, his father, but today he wanted to go down to the creek all by himself, for he knew where a big sunfish made its home under a fallen log.

So while he was out in the barnyard digging worms for bait, his mother got him up a nice cold lunch. Then Billy kissed mother good-bye and the next minute he was trudging down the lane, his fish-pole over one shoulder and whistling as merrily as a lark.

A clump of willows grew on the bank of the creek right above the spot where the sunfish made its home. So Billy sat down in the shade and dropped his hook by the side of the log.

He fished for nearly an hour without getting a bite, when a big blue Kingfisher flew up the stream and perched on a dead limb above the pool. For several minutes he sat so still you would have thought he was part of the branch. In fact, if Billy had not seen him fly up into the tree he never would have noticed him at all, at all. Then suddenly he dived from his perch like a lump of lead, hitting the water with a loud splash. But he was up again before you could say Jack Robinson, and as he darted away with a cry that sounded for all the world like a policeman's rattle, Billy saw there was a minnow clutched tightly in his claws.

"Well, Billy Boy, what do you think of that fellow as a fisherman?" asked a squawky little voice. Billy was so surprised he dropped his pole, but the next minute he was laughing again, for there stood Tinker Teedle Tee, the merry little elf, smiling and nodding his head in the most friendly manner imaginable.

"Oh, Tinker, a big sunfish lives under the log," said Billy. "I saw him yesterday when I was helping Fred drive the cows to pasture, but I can't catch him, although I've been fishing for ever so long."

"You should get Mr. Kingfisher to help you," replied the elf. "He is the best fisherman I know and he doesn't need a hook and line, either."

"I certainly do wish I had a tame Kingfisher to help me out when the

fish don't bite. Just think what fun it would be to sit here in the shade and have a bird catch fish and drop them right in your lap."

"Then you should live in Japan," replied Tinker. "For that is the way the natives over there do their fishing."

"The next thing you'll be trying to make me believe the moon is made of green cheese," said Billy, who didn't like to be teased. "Who ever heard of a bird that would do your fishing for you?"

"I'm not fooling, Billy Boy, Honest Injun I'm not," declared the elf. "Do you mean to tell me that in Japan the birds do the fishing?"

"Yes, sir-ree, that is exactly what I mean," replied Tinker, nodding his head so hard that the weeny copper kettle that served him for a hat bobbed up and down at a great rate. "Over in Japan they have a bird called the Cormorant, a kind of sea gull that lives almost entirely on fish. The natives catch them when they are just learning to fly and make pets of them so that they become so tame they come to their master whenever he whistles."

Then a man has his Cormorant thoroughly trained he takes not down to the seashore and lets it loose. Mr. Cormorant goes sailing out over the waves, circling around and around until his sharp eyes spy an unlucky fish basking near the surface of the water. Then he swoops down and grabs Mr. Fish in his bill and flies back to shore where his master is waiting for him."

"But I should think the Cormorant would eat the fish instead of giving it up to his master," objected Billy.

"He would if he could," replied Tinker, "but you see the Japs are sly little fellows and they thought up a way to fool Mr. Cormorant. Before they turn their feathered fisherman free, they fasten a leather collar about his neck, a collar that fits so tight the bird can't swallow a pea, let alone a fish. So you see there is nothing for Mr. Cormorant to do but bring the fish to his master. But when the fisherman's basket is filled, he takes off the collar and lets his helper catch a good meal for himself."

"That kind of fishing may be all right, but I think it is more fun to fish this way, even if you don't always catch anything," replied Billy. Now what do you think about it?"

Samuel Lindsey, who has been ill, is reported somewhat better.

Quite a number gathered at the home of George Ratliff Saturday night and enjoyed a social time. Ice cream and cake were served. Those present were B. A. Johnson and family, Oliver Lindsey and son Glen and daughter Gladys, Samuel Lindsey, Lee Lehey and sisters, Margaret and Katie, Edward and Johnnie McCarty and William Samples.

George Ward had his dry well filled up this week. B. A. Johnson doing the work.

William Collins, living west of Philadelphia, had a runaway in this neighborhood Sunday afternoon. The team got loose from the rig and ran two miles before being caught. No one was hurt.

B. A. Johnson has cut his eye. Wheat harvest is near.

Nearly all of the farmers in this vicinity are busy plowing corn.

George Ratliff went fox hunting Monday night. I expect he would like to buy some more hounds.

## IN SUCH PAIN WOMAN CRIED

Suffered Everything Until Re-  
stored to Health by Lydia  
E. Pinkham's Vegeta-  
ble Compound.

Florence, So. Dakota.—"I used to be very sick every month with bearing down pains and backache, and had headache and a good deal of the time and very little appetite. The pains were so bad that I used to sit right down on the floor and cry, because it hurt me so and I could not do any work at those times. An old woman advised me to try Lydia E. Pinkham's Vegetable Compound and I got a bottle. I felt better the next month so I took three more bottles of it and got well so I could work all the time. I hope every woman who suffers like I did will try Lydia E. Pinkham's Vegetable Compound." — Mrs. P. W. LANSING, Route No. 1, Florence, South Dakota.

Why will women continue to suffer day in and day out or drag out a sickly, half-hearted existence, missing three-fourths of the joy of living, when they can find health in Lydia E. Pinkham's Vegetable Compound?

For thirty years it has been the standard remedy for female ills, and has restored the health of thousands of women who have been troubled with such ailments as displacements, inflammation, ulceration, tumors, irregularities, etc.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

TO HEAR LIEBEL SUIT AGAINST EVANGELIST.  
Hazleton, Pa., June 26.—As an aftermath of the recent religious revival in Hazleton there will open here on Monday a hearing on the \$50,000 slander suit brought against Rev. Dr. Henry W. Stough, the evangelist, by a prominent citizen whom the preacher flayed from the pulpit. Three arbitrators have been appointed to take testimony in the suit of Councilman William J. Cullen. Cullen brought the suit after Dr. Stough was alleged to have stated from his tabernacle that Cullen, Max Friedlander, a liquor dealer, John Firro, a politician, and Alderman Henry Jacobs, a brewer, were responsible for vice conditions in the city. Dr. Stough will be defended by prominent attorneys and the suit is expected to develop an earnest fight.

THE OLDEST GRAND ARMY MAN.  
Cohasset, Mass., June 26.—William F. Thayer, who it is claimed is the oldest member of a Grand Army post in the United States, will reach the age of 101 tomorrow. He turned out with "the boys" on Memorial day. With his sons he joined the army and fought through the Civil war.

10. J. Cooper	5:32:10	90.3

Speedway, Chicago, June 26.—All competitive speedway automobile records of the world from fifty miles to five hundred were shattered in the running of the first Chicago five hundred mile derby.

They were not only beaten by Dario Resta, who won with a French car and captured more than \$20,000 in prize money, but by the nine other drivers who finished in the money.

The previous record, made by Ralph DePalma at Indianapolis recently, was at the rate of 89.84 miles an hour. Resta averaged 97.6 over the same distance and J. Cooper, who finished tenth, bettered the DePalma mark, averaging 90.3 miles.

The result, according to experts, establishes the reputation of the new wooden track as the fastest in the United States, if not in the world. It was announced that despite threatening weather early in the day eighty thousand persons witnessed the spectacle.

The performance of the veteran Harry Grant in driving the entire race without a stop excited almost as much enthusiasm as the brilliant victory of Resta. Grant never hesitated during the entire five hundred mile grind, although his average speed, which landed him in fourth position, was 95.06 miles an hour. The previous non-stop record in competition was 305 miles.

Twenty-one cars started and eight dropped out in the course of the grind. J. Cooper, the last of the ten drivers to finish was only 25 minutes and 4 seconds behind the victor. Resta was favorite and led most of the way, closely pressed at all times. He visited the pit only three times.

Porporato had more tire trouble than his compatriot or he might have landed the race. He started out with the idea that an average speed of 97 miles would win and held that pace with little variation for 400 miles when he saw that more speed was necessary if he hoped to overtake Resta. Thereafter it was neck and neck between the two with Rickenbacker and Grant always threatening.

A remarkable feature of the race was its freedom from injuries to drivers or spectators.

TO NATIONAL CONVENTION.  
Mr. and Mrs. James H. Danskin will leave Tuesday for Chicago on their way to Atlantic City to attend the national convention of the anti-saloon league. They will join the Illinois delegates to the meeting in Chicago and will leave that city on a special train over the B. & O., which leaves Tuesday afternoon at 5:45 o'clock. While in the east Mr. and Mrs. Danskin will visit New York City, Philadelphia, Westfield, N. J. and Atlantic City and also will visit in Washington before returning home. The convention will last from July 6 to 9 inclusive. Headquarters for the Illinois delegation will be at the Monticello hotel. There probably will be 20,000 delegates in attendance. The session will be held in Young's million dollar pier which has been leased for the occasion.

GAVE RECEPTION.  
Mrs. O. E. Tandy has returned from Springfield where she went to attend the meeting of the executive board of the Rebekah state assembly. While in Springfield she was entertained by the Rebekah lodges of the capital city. On Wednesday night Triple Link lodge gave a reception for Mrs. Tandy while on Thursday night Lila Lodge gave a reception.

HONOR TO AN OLD SOLDIER.  
Yesterday morning a goodly number of veterans gathered in the central park and proceeded to East Lafayette avenue to escort to the train on the C. & A. road the body of the comrade, W. F. Long, whose funeral was to be conducted at Pearl. There were eight bearers, a friend of the family, John Pecker, and comrades C. E. McDougall, W. H. Jordan, L. Goheen, Frank Wigginjost, Hassell Hopper, Frank Moseley and S. T. Maddox. The squad attending was in charge of Commander Benjamin Wood and among the number were John Velria, John Kirkman, John Hickman, R. R. Stevenson, S. W. Nichols, W. V. Wyatt, J. E. Wright, R. H. Donaldson and Daniel Gilpin.

SOME CROP PROSPECTS.  
Fred Drake, manager of the cigar box factory, has returned from an extended trip including Danville, Champaign and various other points and from all quarters he brings the report of fine crops and great prospects. Good weather for a time now will mean an immense benefit to the middle and southern part of the state at least and much for the northern too. Mr. Drake found many binders in the wheat fields and many more fields soon to be ready.

## SPRINGFIELD SEEKS TO RAISE FUND OF HUNDRED THOUSAND

This Amount Necessary to Secure Centennial Memorial Building.

Citizens of Springfield already are taking steps to raise the \$100,000 necessary to secure to the city the magnificent Centennial Memorial Building, which it is proposed to add to the group of state buildings at the capital. A committee of prominent business men has been formed to take charge of the matter and it is expected to have the \$100,000 fund available by the time Governor Dunne names the commission to have charge of the matter.

The recent legislature passed a bill providing that the state acquire the two square blocks of land adjoining the present capitol grounds on the south, and appropriate \$125,000 to be applied toward purchasing the tract. It was stipulated in the bill, however, that the \$125,000 of state funds should not become available until the citizens of Springfield, or some one in their behalf, shall secure in a manner satisfactory to the commission, that at least \$100,000 will be placed at the disposal of the commission to be used by it in part payment for the land in question. The people of Springfield were the first to propose that they contribute \$100,000 to the building fund and there seems to be no doubt of their making good their proposal.

The land in question will give the state of Illinois the most beautiful capitol grounds of any state in the Union and will furnish sites for all the additional state buildings needed in probably another century. The first structure placed upon it will be a Centennial Memorial Building, the dedication of which will be a feature of the Illinois Centennial celebration in 1918.

The bill providing for acquiring the additional grounds, also creates the Centennial Building Commission. "To erect thereon a building of a character suitable as an appropriate permanent memorial of the one hundredth anniversary of the admission of Illinois into the Union," the Commission, as provided for, will consist of the Governor, Secretary of State, superintendent of Public Instruction, Chairman of the State Art Commission, President of the State Historical Society and two persons, not more than one of whom shall belong to any one political party, to be appointed by the Governor.

This act will become effective July 1 and Governor Dunne is expected to name the two members of the Commission as provided for in the measure immediately after that date, so that no time will be lost in making ready for the Centennial celebration.

### TODAY IS FATHERS' DAY.

Today will be observed as Fathers' day by the Literberry Christian church Sunday school. Appropriate exercises will mark the event. The committee in charge of the program is composed of C. G. Cantrell, C. P. Henderson and J. S. Hitchens.

Next Sunday will be Old Settlers' and Flag day at the Literberry church. This is an annual event and one of the red letter days of the church year. All members of the congregation wear flags on this occasion. Capt. John E. Wright of this city and L. A. Barr of Virginia will be the principal speakers. The committee in charge is composed of D. T. Litter, Charles Young and James Peteish.

### IMPROVEMENTS AT

PACIFIC HOTEL  
Manager Campbell of the Pacific Hotel company has been busy since taking charge of the hotel. The first work done was redecorating the dining room. This room has been papered and painted and the wood work all finished in enamel. New linoleum has been placed on the floor and the improvements make a great change in the appearance of the room. Mr. Campbell also has in mind the addition of several additional rooms which the growing of the business requires and also the installing of several private baths. He has placed fans in the lobby of the hotel which add greatly to the comfort of the guests. It has been the aim of the new management to increase the quality of the service in every way.

### MUSKRAT HUNTERS.

Muskrafs in the lake at Nichols park have become uncomfortably numerous and are charged with the disappearance of two of the brood of six young swans hatched by the proud parents in the spring. Though the little swans are about as large as ordinary chickens the vermin manage to get away with them. Friday evening Messrs. W. H. Anderson and George W. Imgrund of the park board went out to the lake and with guns awaited the appearance of the mischief makers. The trusty firearms of the visitors made five muskrats, bite, not exactly the dust, but the mud in the bottom of the lake and the rest of the lot will be looked after as far as possible. The young swans are rather too active to be sacrificed to such creatures as the muskrats if it can be avoided.

### FUNERAL NOTICE.

The funeral services for Miss Anna Hackman will be held this morning at 10 a. m. from the residence, in charge of the members of the Christian Science church. Interment will be in Diamond Grove cemetery. Funeral services will be private.

### HAS PURCHASED FIRE HORSE.

Commissioner Martin on Saturday purchased a horse for the hook and ladder wagon in the fire department. The animal was purchased to replace the one that died a few days ago and was furnished by James Ranson.

## Mr. and Mrs. William H. Richards Who Celebrate Their Golden Wedding Anniversary Tomorrow

William Henry Richards

Mrs. William Henry Richards

Mr. and Mrs. William Henry Richards of 302 West North street, will celebrate their golden wedding anniversary at their home tomorrow, surrounded by their children and friends. Perhaps no couple in the city is more highly respected than Mr. and Mrs. Richards and many will be the sincere good wishes extended them upon the occasion of fifty years of wedded life.

### Born in London.

Mr. Richards was the son of Mr. and Mrs. William Richards and was born in London, Eng., January 22, 1843. The family consisting of the parents and six children came to Jacksonville in 1856. They left London, May 1 and landed in New York City, June 10. The captain of the vessel died during the voyage over and was buried at sea. The Richards family was induced to come to America because of the mother's brother, William Wyatt, who lived there on Grove street. His daughter who married Milton Harney still lives in the city. The father was a painter by occupation and the family resided for some time near where the LaCrosse Lumber company is now located.

### Native of Germany.

Mrs. Richards' maiden name was Elizabeth Christ, a daughter of Mr. and Mrs. Joseph Christ. She was born in Copen, Germany, February 14, 1841. There were seven children in the family and they came to America in the sailing vessel Henrietta. Thirty-one days were consumed in making the trip. The family moved to Syracuse, New York, where the father died about two years after arriving there. In October 1863 Miss Elizabeth came to Jacksonville where she met Mr. Richards and they were married June 28, 1865.

### The Wedding.

The wedding took place in their present home on North West street, which had been built by Mr. Richards' father. The wedding was held in the evening and the ceremony was performed by Rev. R. W. Allen, pastor of the Second Presbyterian church. Mrs. A. J. Kinsbury and daughter Mrs. Lydia Soby, who made the wedding dress for Mrs. Richards, are still living in Jacksonville and were present at the marriage. Others living who attended the wedding are Mrs. Louise Lomb of 223 West North street, Mrs. James Bourn of Routt street, a sister of Mr. Richards; Thomas Richards of West North street, a brother of Mr. Richards, and Mrs. John Orway of New York city. The house where the marriage took place, is intimately associated with the life of the family. The grandparents resided there. Mr. and Mrs.

The children. All the children have arranged to be here for the celebration with their families and several of them have already arrived. They are as follows:

Margaret who married H. G. McGill of Springfield; Henry T. Richards and wife and two children, Kenneth and Calvin of Springfield; and Mayme, who was married to Paul Traub, and resides in Carlville, Ill.; Laura, who married Charles Crandall and lives on Hardin avenue. They have one son, William; Carl, who resides on North Church street. Mr. and Mrs. Carl Richards are the parents of one daughter Helen. One son William is dead.

### Worked Long for One Firm.

Excepting from the years 1873 to 1876, Mr. and Mrs. Richards have always resided in Jacksonville. Mr. Richards at one time was employed by E. C. Lax, who conducted a dry goods store on the north side of the square. For 22 years he was a valued employee in the Seeburger clothing store, where Myers Bros. store is now located. For the past seven years he has been working in Springfield. Recently he has given up his position there and is spending a quiet life in Jacksonville.

Mr. and Mrs. Richards are members of the First Church of Christ, Scientists. The local branch of the church was formed some seventeen years ago at the Richards home and they have been very active in the work of that denomination.

### Family Dinner Tomorrow.

Members of the family will gather around the festal board tomorrow at the noon hour, when a bountiful dinner will be served. The afternoon will be spent in a social way and the large number of friends of Mr. and Mrs. Richards no doubt will take advantage of the opportunity to call at the home and extend to them the warmest congratulations, and it is needless to say that the hospitality of the home has always been appreciated by everyone. Among the guests aside from family who will be here is Mrs. Lena Brehm of Chicago. Mrs. Richards has a brother Anthony Christ residing in St. Paul, but it is not probable that he will be able to attend.

### IN HONOR OF BIRTHDAY.

Friday was the 52nd anniversary of the birthday of Elmer H. Tichnor and in honor of the event, a celebration was held in the home of Mr. and Mrs. Roy Mawson, who reside south of the city. The trip there was made in Mr. Tichnor's Red car and those going included Capt. J. M. Swales and M. L. Hildreth, father of Mrs. Mawson. The visitors took along a large freezer of ice cream and other things and with the delicious things furnished by Mrs. Mawson, the refreshments were greatly enjoyed. Mr. Tichnor is chairman of the Republican central committee. He was extended

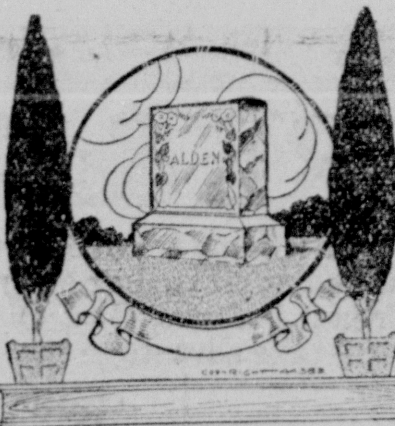

many good wishes by his friends yesterday.

### FRANKLIN HOME-COMING WILL BE GREAT BIG EVENT

Executive Committee Has Plans Well Under Way—Automobile Parade Will be an Important Feature.

Franklin citizens have arranged for their second annual home coming, which will be held in that town August 18, 19, and 20. The first home coming held last year was a big event for Franklin and exceeded all expectations. The event was something new for a small town but the management made good on the job by giving visitors everything they advertised and more. The same motto will be followed this year.

The finance committee of the home coming want out and in three days raised seven hundred dollars to defray the expenses. With one considers the business depression, which has existed throughout the country for several months it shows that the business men of Franklin not only appreciate a good thing but that they have the push and enterprise necessary to promote such an undertaking.

Every day at 11 o'clock there will be a big automobile parade and prizes will be distributed to the lucky ticket holders. In addition to this feature there will be not less than four free acts, baseball game, athletics and addresses. As was the case last year a free rest room will be maintained. The management also is considering the advisability of having a big southern barbecue dinner each day.

Franklin will be featured in the home coming as "The Little town with the Big Nerve."

The executive committee in charge of the affair is composed of the following representative men of the

town: George Schaaf, W. C. Calhoun, Elmer Roberts, W. N. Luttrell, M. B. Keplinger, J. O. Rolston and Dr. J. M. Elder. These men personally guarantee that everybody will get their money's worth.

NEW OSTRICH TON PONS, NEW OUTFIT HATS, NEW WHITE WASH SKIRTS, NEW HOUSE DRESSES, ALL SPECIALLY PRICED AT HERMAN'S PUBLIC SALE.

### RETURN FROM WEST.

Louis Cain and W. H. McCarthy who went to Omaha for the T. P. A. convention returned to Jacksonville Saturday. After the convention they went to Denver, Colorado Springs and various other places of interest and the trip was a very enjoyable one. They were especially pleased with the courtesies extended to all delegates by the people of Omaha.

The change will be made July 1. Harvey E. Burns who had charge of the mechanical department for Mr. Babb will go with him and will be one of the expert mechanics at the new place of business. As is known Mr. Babb handles the Cadillac and Dodge cars and he believes the change will give him a better location as to sales-room and service station.

## HILLERBY'S TO-MORROW

Dry Goods Store.

On Monday, June 28, we enter upon the last week of our Great Unloading Sale. The generous and continued response it has met with is mainly due to the fact that the character of our merchandise as well as our pricings were in strict harmony with the ideas our patrons had derived from our advertising.

The total absence of shady methods, which are so often practiced by less fastidious merchants during their clearance sales is the real secret of our success, and to this policy we shall adhere to the end.

During the rest of the ensuing week, until the close of our sale, we aim to give even Better Values on the most sought for new fabrics.

Be sure and read our adds regularly—You will find it to you interest.

### COMPANY B. IN CAMP AT NICHOLS PARK

Capt. Owens' Men Going Through  
Practice Camp Routine—Company  
Inspection This Morning at 9:30.

At 10 o'clock Saturday night Capt. L. P. Owen mustered his company, 45 strong at the armory and marched to Nichols park where they went into practice camp which will continue during the day. Sergeant Burke who is in charge of the commissary department went to the park at 4 o'clock Saturday afternoon and made the cook tent ready for the occasion. The cooks for the company are Eugene Wilson and James Mallory.

Capt. Owen in talking with a reporter for the Journal last night said that the company would go through the same routine as when in camp. Guard was mounted last night. This morning at 9:30 there will be company inspection. It is expected that there will be drilling practically all day. Dress parade will be about 5 o'clock. It is the intention of Capt. Owens to have dress parade after the ball game in order that those who attend the ball game may witness it. It is expected that the camp will be very helpful to the members of the company.

### MATRIMONIAL

Watson-Poor.

The marriage of Mr. Benjamin Watson and Miss Grace Poor occurred Saturday in Peoria, where the bride resides with her mother. The Poor family formerly lived in Jacksonville.

Mr. Watson is the son of Mr. and Mrs. William H. Watson of Winchester and he formerly attended Illinois college. He now holds a position with the General Roofing and Manufacturing company of East St. Louis with headquarters at Wichita, Kansas. Mr. John Phillips acted as best man at the wedding. Both young people have many friends in Jacksonville who will extend them sincere congratulations.

Gordon-Wells.

The marriage of Herbert L. Gordon and Miss Lillian Marie Wells, took place Saturday evening at 8:15 o'clock at the parsonage of Centenary M. E. church. Rev. G. W. Flagg officiating. The ceremony was witnessed by Mr. and Mrs. Ellsworth Wells and Mrs. Mary Wells of 511 East Chambers street, mother of the bride, where the young people will make their home for a while. Mr. Gordon is a machanic at the Illinois Steel Bridge company.

Hall-Lucht.

The many friends of Mr. Fred S. Hall, son of Mr. and Mrs. A. N. Hall, who reside five miles north of Jacksonville and Miss Frances Lucht, daughter of Mrs. Roxie E. Lucht, of 222 West College street, will be surprised to learn that they were married Saturday afternoon at 5 o'clock at the Centenary M. E. church parsonage, Rev. G. W. Flagg performing the ceremony.

The bride has always made Jacksonville her home and is an attractive young woman. Recently she has been employed in the Kresge store. The groom is a farmer and they will live with his parents for the time being. They are to take a short wedding trip.

Applications will be received for lease of five rooms of my residence at 252 Park street. Present tenants will vacate on July 10, 1915. Modern conveniences and desirable location. C. C. Capps.

### TO BUILD NEW HOME.

### CUSTER MASSACRE WAS THIRTY NINE YEARS AGO

A Number of Jacksonville Residents Have Reason to Remember Battle Notable in Indian Warfare.

June 25th was the 39th anniversary to the Custer massacre by the Indians on the western plains and never was there a more bloody affair than that, but one of the command of the brave leader surviving the awful conflict. In this city and vicinity are a few persons who have special reason to recall the dreadful affair whose details are well known and have been described many times.

James Roundtree of Nortonville, was a captain in the 59th New York Infantry and served with credit during the civil war and again enlisted under Gen. Custer, then colonel of the 7th U. S. Cavalry serving in the far west. The regiment was divided and Capt. Roundtree was with the battalion commanded by Capt. Benet and so was not in the fatal engagement.

Eugene Pelham was also serving in that region and was a bearer of dispatches and arrived near the scene of the massacre the day after it took place and saw the ghastly spectacle.

Dr. Emmanuel Sipes residing on South East street, this city, lived at the time of the fatal encounter not far from the scene and aided in burying the bodies of the slain.

Louis Simms, the well known pension agent, has a copy of the original painting of the battle and a pamphlet containing an account of the engagement.

### NAVAL ENSIGN MANLEY KILLED

IN AUTO ACCIDENT IN OHIO

Young Man Recently Completed Course at Annapolis With High Honors—Was Grandson of Dr. L. D. McCabe.

Ensign John McCabe Manley, aged 22, a graduate from the Naval academy at Annapolis, was struck by an electric car at Columbus, Ohio on June 25 and received injuries from which he died a few hours later. Manley was second in rank in a class of 285 and was under orders to join one of the new war ships.

Manley was a grandson of Dr. L. D. McCabe who for a half century was president of philosophy at Ohio Wesleyan University located at Delaware, Ohio. He was connected with the Capps family of this city through the marriage of John McCabe to Miss Effie Capps. He was a cousin of Mrs. George K. Moor, who is now visiting at her old home in Delaware, Ohio.

Manley was driving his car east in National Road and started to turn into Caldwell road. To do so he had to cross the tracks of the electric railway. He did not notice an approaching west bound car which struck the rear of his automobile. The automobile was whirled around and Manley was thrown out. He suffered a broken leg, had bruises about the head and internal injuries.
